related: Employment

message: I would like to have "just cause" and for "insubordination" removed from my record. As the Population Analyst for BC Stats, my disclosure, in a grievance, of the real methods used to create population numbers resulted in me being ordered to "gather my belongings, turn in my security pass and leave the building." The population numbers are used to justify opening and closing of public and private facilities, including schools. Please regularly ask ...insist, the Minister of Labour and Citizens' Services removes the block to arbitration, imposed by the Ministry, thereby allowing a fair hearing to proceed.

reply: yes
