<p>In a letter dated November 22, 2011, to William Warren Munroe from the Ministry of Labour, Citizens' Services and Open Government, A. Deputy, B. Hughes, we were told "In a 2005 feasibility study prepared by Statistics Canada (STC) for Finance Canada, the agency concluded that: ...population estimates produced by three provincial/territorial statistical agencies (Quebec, British Columbia, Northwest Territories) were all found to be of better quality when compared with those based on any of the three STC methods." After correspondence with Statistics Canada I wrote to the Minister asking for the title and a copy of the feasibility study to no avail; therefore, could you please ask the Minister (Ministry) to provide the full reference to this study. See http://www.wminfomatics.com/WMAAnalytics/Articles/120127/PopEstwhat.html Thank you.</p>
